PROFESSIONAL SUMMARY

Software developer with **4+ years of commercial and freelance experience** in Unity, C#, mobile games, VR/XR and interactive applications. Currently developing websites, admin dashboards and web applications independently while continuing part-time Unity work. Focused on clean architecture, maintainable code, UI quality and end-to-end delivery.

TECHNICAL SKILLS

Languages & Web: C#, TypeScript, JavaScript, HTML5, CSS3, Markdown; web apps, responsive UI, admin dashboards

Unity & Mobile: Unity 2D/3D, VR/XR, Android/iOS builds, gameplay systems, Spine, DOTween, optimization

Architecture & Backend: SOLID, Zenject, ASP.NET, client-server functionality, service / SDK integrations

Tools & Quality: Git, AI-assisted development (Claude Code, Codex, ChatGPT), testing, debugging, refactoring, code review

Analytics & Ads: Firebase, AppMetrica, Game Analytics, AdMob, Unity Ads, AppLovin, SDK/NDK

WORK EXPERIENCE

Freelance Developer

Self-employed · Remote | 2026 - Present

- Develop websites, web applications and administrative dashboards using **TypeScript, JavaScript and HTML/CSS**; handle UI implementation, project structure and delivery.
- Work on independent and client projects, including **Math-Veb** (educational platform + admin panel) and **AUTOCOREx** (website + admin panel).

Unity Developer

Mirko Solutions · Remote | Apr 2026 - Present

- **Full-time: Apr - Sep 2026 (6 months) | Part-time: Oct 2026 - Present.**
- Work on outsourced Unity VR/XR and interactive applications, including an NDA-protected VR project; develop gameplay, VR interactions, UI and client-server features.

Unity Developer

CREATY · Lutsk | May 2024 - Apr 2026

- Developed two mid-core Unity projects from scratch through release, covering gameplay systems, UI and Android/iOS build preparation.
- Integrated monetization, analytics and third-party services (AdMob, Unity Ads, AppLovin, Firebase, SDK/NDK); collaborated with design and product teams.

Unity Developer

Bugiko · Remote | Nov 2023 - Apr 2024

- Built a large-scale Unity prototype from scratch, selecting architecture and technology stack and improving performance, scalability and maintainability.

Unity Developer

Freelance · Remote | Apr 2023 - Oct 2023

- Developed casual mobile games and interactive Unity apps, including gameplay mechanics, UI, animations, audio, testing and client communication.
