Dementiy Besarab

Unity Developer | C# | Gameplay Systems | Multiplayer | VR/XR

besarabdementij1@gmail.com | +380 50 887 12 60 | Lutsk, Ukraine | LinkedIn

Portfolio: dementiy-besarab.vercel.app | 3D Portfolio: 3-d-portfolio-3d.vercel.app

PROFESSIONAL SUMMARY

Unity Developer building mobile games, VR/XR and interactive applications in C#. Delivered **two mid-core projects from scratch through release**, with experience in gameplay, UI, SDK integrations, optimization and online co-op.

TECHNICAL SKILLS

Unity & Gameplay: Unity 6, C#, 2D/3D, gameplay systems, physics, animation, Spine, DOTween

Architecture: SOLID, Zenject, interfaces, state machines, ScriptableObjects, shared solo/co-op gameplay rules

Multiplayer: Netcode for GameObjects, Lobby/Relay, RPCs, state synchronization, cargo prediction/reconciliation

Platforms & Rendering: Android/iOS, VR/XR, URP, custom visual effects, Input System, optimization

Analytics & Ads: Firebase, AppMetrica, GameAnalytics, AdMob, Unity Ads, AppLovin, SDK/NDK

Tools & Quality: Rider, Git, Unity Test Framework, EditMode/PlayMode tests, profiling, debugging, refactoring

WORK EXPERIENCE

Unity Developer

Mirko Solutions · Remote | Apr 2026 - Present

- **Full-time: Apr - Sep 2026 | Part-time: Sep 2026 - Present.**
- Develop gameplay, VR interactions, UI and client-server integrations for outsourced Unity apps, including Tile Trap, Space Snap Clicker and an NDA-protected VR project; debug and optimize features.

Unity Developer

Wayheart Entertainment · Remote · Part-time | Aug 2026 - Oct 2026

- Independently delivered **two major updates** for **The Artman App** using Unity and C#, handling development, debugging and optimization through its **official release**.

Unity Developer

CREATY · Lutsk | May 2024 - Apr 2026

- Developed **two mid-core Unity projects from scratch through release**; implemented gameplay and polished in-game UI with game designers, analysts and UI/UX designers.
- Prepared Android/iOS builds; integrated client-server/backend services, AdMob, Unity Ads and Firebase Analytics; debugged production issues and maintained SDK integrations.

Unity Developer

Bugiko · Remote | Nov 2023 - Apr 2024

- Built a large-scale Unity prototype from architecture and stack selection to MVP. Applied **SOLID, Clean Architecture and Zenject DI** to create modular systems focused on performance and scalability.

Unity Developer

Freelance · Remote | Apr 2023 - Oct 2023

- Built casual mobile games and interactive Unity apps: gameplay, UI, animation and audio. Optimized and tested Android/iOS builds and clarified requirements directly with clients.

PET PROJECT

Scrap Orbit - Unity 3D Pet Project

https://parazzzi.itch.io/scrap-orbit

- Built a first-person **Unity 6/C#** game for **solo and online co-op**: procedural stations, dismantling, physics-based cargo, oxygen management, fire/electrical hazards and teammate rescue.
- **Netcode for GameObjects + Lobby/Relay** for host-authoritative co-op, with cargo prediction and reconciliation. Shared, testable gameplay rules; explicit state machines and ScriptableObject configuration.
- **URP** for rendering and custom effects; **Input System** for controls. EditMode/PlayMode tests, automated co-op scenarios and a Blender Python-to-Unity asset pipeline.

EDUCATION & LANGUAGES

Master's Degree in Civil Engineering | Sep 2024 - Dec 2025
SNU named after V. Dal, Kyiv

Bachelor's Degree in Civil Engineering | Sep 2021 - May 2024
SNU named after V. Dal, Kyiv

Spoken languages
Ukrainian · Russian · English (A2-B1)
